BEAD THE STATEMENTS BELOW AND DESPAIR NOT. WILSON COUNTY, September 10 11867

Dr. J. J. Laurence: DEAR SIR: My youngest daughter, aged five years has been dreadfully afflicted with Scrofula nearly all her life. I tried a great many Physicians, but without relieving her much; in fact, most of them said there was no hope of cure. During the last spring she was worse than ever, her body and limbs being covered with sores and blotches—with face and eyes badly ulcerated and swollen. Whilst in this condition, I was advised by Dr. L. A. Stith to try your Rosadalis. I at once procured three bottles, and commenced giving it to her. The effect was magical. In less than a month, to my great estonishment, she was entirely well Jours, with much respect and gratitude.

BOSADALIS CURES ALL SKIN DISEASES WILSON, N. C., Sept. 15, 1867.

DEAR SIR :—In 1862 my son, now aged five years, was vaccinated with what proved to be impure matter, which completely destroyed his health. He has been afflicted with an inveterate and extremely troublesome Eruption of the Skin, some-times breaking out in sores, &c. Bosalalis was prescribed by my family physician. Dr. A. D. Moore. After taking it a few weeks, my son became and remains entirely well. Yours truly.

Persons suffering with any disturbance of the se-cretory organs, or that have difficulty in discharging the contents of their bowels, or that are in the habit of taking Pills or opening medicines, should try one box of these truly excellent Pills. The happiness of their effects on the system, and the satisfactory evidence one box will give you of their wonderful curative powers will convince you that your faith and trust in them will become firmly es-tablished.

THE PROPERTIES OF

DB. RADWAY'S PILLS.

They Equalize the Circulation, Purify the Blood, and Purge Corrupt and Acrimonious Humors, and retained deposits from the system in six hours.

AS A CATHARTIC they increase, when suspended, the periostaltic mover at of the bowels, and promote a quick evacuation of its contents. Their influence is extended throughout the system, purging the retained deposits in the stomach into the duodenum, stimulating the secretory dusts of the pancreas and liver, in the promotion and increase of the flow of bile and pancreatic fluids.

PURGATIVES of common aloes exert their action on the colon and rectum by irritation of the macus membrane, without influencing the liver or its secretions. Such cathartics are unsafe in pills for general use. The common Cathartic Pills, that induce drastic liquid discharges, should never be given in cases of inflamation, or when there is plearation of the intestinal catal. ulceration of the intestinal canal.

The APERIENT and mild LAXATIVE properties of RADWAY'S PILLS are the best safeguard in these disorders, and in all cases of eruptions and malignant fevers, their balsamic, healing, and soothing properties protect the coats of the alimentary passage against the irritant and acrid humors of the fauces.

The NUTRITIOUS and TONIC properties of these Pills are of great service in depleting fevers and wterine discharges, likewise as a dinner pill, to increase the appetite and promote digestion.

Their SEDATIVE properties allay pain in the nervous system, stomach and bowels, either from inflammation, colic, flatulence, wind, cramps, &c.

Their COUNTER IBRITANT influence extends throughout the system where there is inflamma-tion, congestion, or irritation, stimulating the blood and nervous fluids in the congested vessels, and equalizing its circulation. The principle of Counter Irritation is generally applied to external remedies. Its application, internally, in the form of a purgative medicine, exemplified in Badway's Bills, has proved a wonderful curative principle, readily withdrawing from the blood and fluidatheir action of the principle of the province of the principle of the province of the principle of the province of the province of the principle of the province of the principle of acrid and irritating humors.

AS DIAPHOBETICS OR SUDOBIFICS they stimulate the secretions of the skin, induce exha-lation of obstructed perspiration.

THEIR DIURETIC proprieties act on the kid-neys, correcting and regulating the flow of urine.

THEIR ANTI BILIOUS proprieties stimulate the liver in the secretion of bile, and its discharge through the biliary ducts. In all cases of Head-ache, Jaundice, Bilious Attacks, Safron-colored Skin. IMPERFECT DIGESTION, caused by the over-flow of bile and its mixing with the blood, these pills, in doses of four to six, will quickly regulate the action of the liver and firee the patient from these difficulties. One or two of Radway's Pills taken daily, by those subfect to bilious pains and torpidity of the liver, will keep the system regular and insure healthy digestion.

INFLAMMATION OF THE BOWELS.

In cases where there is severe inflammation, paralysis of the bowels, and a speedy discharge of their contents required, grind six of the pills to a powder and take in some preserves or water. In half an hour the Pills, given in this way, will generally operate. The dose can be repeated, if necessary, in two hours. We have known the pills, given in this form, to open the bowels WHEN CROTON OIL, Elaterium, podephyllum MANDRAKE have failed. It is seldom that a second dose will be required in these cases of Intestinal Obstructions.

THE INVESTIGATION RELATIVE TO THE VOTES OF SENATORS .- The board of managers constituting a committee to investigate the facts relative to the votes of Senators upon the eleventh article held quite a lengthy meeting yesterday. The witnesses examined were Perry Fuller, Esq., Hon. D. W. Voorhees, General Thomas Ewing and W. S. Huntington, of the First National Bank. The three first named were interrogated with reference to conversations with Senator Ross. General Ewing was asked if he did not visit the Senator at his rooms on Friday evening last, and in reply stated that Senator Ross and himself had a brief conversation, in which some reference was had to the impeachment articles, but no attempt was made by the witness to induce the Senator to vote one way or the other. The purport of the testimony of Messrs. Voorhees and Fuller was that no attempts had been ande to induce the Senator to vote for acquital as far as they were advised. The testimony of Mr. Huntington was to establish the facthat a draft for \$20,000 passed through the First National Bank of this city, endorsed by

Woolley. Woolley was also examined. He admitted having received and disbursed that amount of money. but absolutely refused to divulge to whom it was paid or for what purpose, though he averred it was not used by him to affect impeachment. It was understood that Mr. Butler intended to introduce a resolution to compel him to answer the questions, but was cut off by the adjournment of the House at a little after 2 o'clock, a motion to adjourn until Friday having previously been lost by two votes.

General Logan is at Chicago, and the examination is pushed mainly, it is understood, by Mesers. Butler and Stevens, assisted by Mr. Covode, of Pennsylvania, who has had considerable experience in the investigation line.

SUIT AGAINST MR. STANTON .- J. J. Bright and J. N. Oliver have brought suit for John Naglee against Secretary Stanton, for trespass, laying damages at \$50,000. The plaintiff in his declaration sets forth that on the 12th of May, 1865, he was the owner and in peaceful possession of a farm called Neabsco, in Prince William county, Va.; that the defendant, acting under and by authority of the power vested in him, caused an officer of the cavalry of the United States to enter on his farm and turn him away, whereby he lost the use of said farm during the cropping season of 1835, and lost a large number of horses, cattle, sheep, hogs, &c.

THE MISSOURI DELEGATION AND SENATOR HENDERSON .- Senator Henderson was on the floor of the House a short time this morning conversing with a member of the Missouri delegation. It is understood that the committee to investigate the correspondence with reference to this Senator's vote on impeachment have found ne facts beyond what were already known, and that their report will not reflect injuriously upon the action of either party. Mr. Henderson was requested to appear before the committee at their meeting this morning. but for some reason or other failed to do so, and therefore the investigation was not concluded as intended.

No PAY .- There are now employed in the Treasury Department about three hundred laborers and messengers, who have not received any pay since March last, on account of the contingent fund of the Department, out of which they are paid, being exhausted. All of these employees are in want of money, and it is to be hoped that Congress will, at an early day, make the necessary appropriation to pay them. They were all notified when the fund was exhausted, but consented to continue on with their work, hoping that the appropriation would soon be made.

PERMISSION TO BE ABSENT .- The President yesterday received a communication from Noble D. Larner, Esq., Grand Secretary of the Grand Lodge F. and A. M. of this District, requesting, on behalf of the brethren engaged in he executive departments, an order allowing them to be absent from official duties on tomorrow (Wednesday) afternoon, after 10'clock. The President referred the communication to the heads of the various departments, recommending it to their favorable consideration. It is understood that all Masons will be allowed to absent themselves to attend the dedication.

[Dispatch to the New York Times.] WASHINGTON, May 17.—The stories about Chief Justice Chase and the Presidency are finally coming into some tangible shape. He has formally put himself into the hands of his friends, and said that, while he is not a candidate, he cannot object to the use of his name, and will run if nominated by the Conservatives. The movement in his behalf seems to originate The movement in his benait seems to originate in Philadelphia. He was waited upon last Thursday by two gentlemen representing the Citizens Conservative Association of that city, one of them being the assessor in Kelley's Congressional District, and the other the late Democratic nominee against Kelley for Congress. The report of the interview is furnished by the former. Both gentlemen were delegates in the former. Both gentlemen were delegates in the Philadelphia Convention of 1866, and both are now in full fellowship with the Democratic party. They told the Chief Justice of the high respect they had for him, said people were all turning toward him to lead them out of a perileus condition into which they had been brought by the revolutionary conduct of the Republican party, and tickled his ear with some fine phrases about sweeping the country from ocean to ocean with his name. Mr. Chase responded that he was much grat-ified with their visit; that his position forbade him from entering much into politics; that he was, however, the servant of the people, and should they call him to preside for the next four years over the destinies of the country, he should teel it his duty to comply. He further said that the office of President never is an agreeable one, and would not now be necessarily agreeable but he deanly felt the dealers. agreeable one, and would not now be necessarily agreeable, but he deeply felt the deplorable condition of the country, and would do anything he could to restore confidence. So if the people called him to the Presidency, he should not feel at liberty to decline allowing the use of his name. The gentlemen said they were much pleased with the words of the Chief Justice, and, after they left him, called on various leading Democratic Congressmen to concert measures for placing him in the field as the regular Conservative candidate against Gen. Grant.

TELEGRAMS TO THE STAR. This Afternoon's Dispatches. CHICAGO CONVENTION

FROM CHICAGO TO-DAY.

IMMENSE CROWD. ACTIVE CANVASSING FOR THE VICE

THE EAST WANTS A FAIR SHOW.

PRESIDENCY.

[Special Dispatch to the Star.] CHICAGO. May 19 .- The city is full to-day, in fact overflowing. All of the leading hotels are occupied to their utmost capacity, with three and five in a room. A private parlor a: the Sherman House costs forty dollars a day. There are over one hundred newspaper men here, representing journals from Portland. Maine, to California.

The canvassing is wholly confined to the Vice Presidency. The friends of Mr. Wade have abandoned the intention urged yesterday, of nominating him by acclamation. The various State delegations insist on throwing a complimentary vote for their candidates. Maine is for Hamlin; New Hampshire is inclined to Wilson; Vermont is for Poland; Massachusetts is for Wilson; Connecticut, for Buckingham; Rhode Island, Burnside; New York, Fenton: Pennsylvania, Curtin; Ohio, Wade; Nebraska, Wade: Irdiana, Colfax; Michigan, Colfax; Illinois, Colfax; Wisconsin, Wade; California, Wade; Missouri, Wade; Iowa, Wade; Mary land, Creswell; New Jersey, Ward.

After the first ballot has been cast the complimentary names will be dropped, and the play will be opened in earnest between the half dozen real contestants. Hamlin has some shrewd and active can vassers on the ground, who are making some impression upon the delegates. It is not probable, however, that Hamlin will receive more than the votes of the Maine delegation on the first ballot or two. The friends of Messrs. Hamlin, Wilson, Cur-

tin, and Fenton are urging the unfairness and impolicy of having both the candidates for the Presidency and Vice Presidency selected from the West. As Grant is to be the nominee for Presidency, let the East name the candidate for Vice President, they say.

FOR EXCOMMUNICATION. BIG TRAIN FROM WASHINGTON. SOUTHERN DELEGATES ALLOWED SEATS IN THE CONVENTION.

[Special Dispatch to the Evening Star.] CHICAGO, May 19 .- For the past twenty-four hours the various State delegations have been holding meetings on the Vice Presidency, and the excitement has run very high. The outside pressure on behalf of Fenton is tremendousone delegation here numbering 500 men-but he has no strength in the convention outside of New York. The contest is now narrowed down to Wade, Hamlin, and Colfax, with relative strength in the order named. Two-thirds of the New England men are for Wilson on the first ballot. The Wade men claim four hundred out of six hundred delegates; while the Maine delegation, think the result will be that the conflicting interests will unite on Hamlin

on the third ballot There has been a bitter fight in the Pennsylvania delegation between Cameron and Forney, which was settled by summoning a meeting in favor of the latter, who was made chairman of the delegation. The Convention will take independent action on impeachment, and the indications are strong that seven Republican Senators will be expelled from the party. Logan, Judd, Sickles and others have made speeches favoring action in that direction. A few Conservative Republicans, led by the Chicago Post and Tribune, alone oppose it. The great train from Washington, numbering eighteen car loads, produced a decided sensa-

The Soldiers and Sailors' Convention, numbering four hundred delegates, met at noon and declared for Grant, but did not deem it proper to select Vice Presidential candidates. Paris, May 19 .- The telegram announcing the acquittal of President Johnson on the 11th article was received here late on Saturday night. The following is an epitome of the opinions expressed by the leading journals: The Temps (Democratic) says Johnson has been saved by legal forms only. He has been deposed in the minds of the country. The Journal des Debats (Orleans) says: Whilst Johnson is acquitted, the vote is such as to render him powerless hereafter. CHICAGO, May 19 .- Dispatches in the Tribune of this city state that at York, Pa., an attempt was made to assassinate Gen. Logan, who was on the train, while the train was in waiting. Gen. Logan had occasion to step from the cars, when he was immediately recognized by a lot of men standing around the depot. Just as the whistle of the engine blew for starting, several large stones were hurled through the windows of the car where Gen. Logan sat. Fortunately this did no more damage than to break the windows. One of them came very near hitting a daughter of Senator Cameron on the head, and another struck Gov. Hahn on the breast. Gen. Sickles and a large number of Republican Congressmen were on the train.

A DETERMINED ATTEMPT AT SUICIDE.—
About nine o'clock last night a young woman giving the name of Caroline Montgomery, who said she belonged in Virginia, and had been employed for a short time in Lynn, was arrested by an officer of the First Station for attempting to drown herself. It appeared from the statement of the policeman that the prisoner had attempted to jump overbeard two or three times in the vicinity of Gray's wharf, but had been prevented from accomplishing her object by Custom House officers, on whose request she was taken into custody. She said the reason for the attempt at self-destruction was caused from her having no work, and her trunk of clothing being left in Lynn for a debt of six dollars to her landlady.—Boston Herald. CHAMPAGNE FROM PETROLEUM .-- It is no longer a secret of the chemist's labaratory that clear, golden syrups can be made from starch and sulphuric acid: that delicious wines and brandies car be made from beet root; that a barrel of peanuts can be transformed into excellent coffee; that lard can absorb an enormous quantity of water in certain conditions; that in fact there seems to be no limit to the adulterations that an intelligert and dishonest chemist ter days become degraded into mere tricks of trade, and their chief beauty is in their capacity to enable unscrupulous dealers to lighten pockets, and destroy the stomachs the confiding and consuming public. Concerning the article of champagne, a All the new councilmer appointed by Gen. | writer in the Portland (Me.) Star tells us that it is made from a thousand different substances -even from refined petroleum. Yes, from the fiery benzole a sparkling, bubbling, foaming champagne can be produced which, will delight the eye, tickle the palate, gladden the heart momentarily-but quicken our paces toward the graveyard. This a new use for petroleum, which those who have been experimenting with it as an agency for generating steam have little dreamed of.
